

# MODERN TRENDS IN INFECTIOUS DISEASES AND IMMUNOLOGY

## IX Training Course for Paediatric Infectious Diseases Trainees

Seville, Spain · 5–7 November 2026  
Hospital Universitario Virgen del Rocío  
Instituto de Biomedicina de Sevilla (IBiS)

### An established European training initiative in Paediatric Infectious Diseases

Paediatric Infectious Diseases (PID) continues to grow as a highly collaborative and academically active subspecialty across Europe. Since its first edition in 2013–2014, this ESPID-supported training course has become a leading educational initiative for trainees in Spain and across Europe.

The ninth edition will bring together approximately 120 participants for an intensive and highly interactive programme focused on current and emerging topics in Infectious Diseases and Immunology.

### Course Highlights

- International faculty from Europe, Australia, Israel and the USA
- 12 interactive clinical case discussions
- State-of-the-art lectures and practical learning
- Networking opportunities for trainees and specialists
- Official language: English
- EACCME accredited (15 CME hours)

### Confirmed International Faculty

Andrew Pollard • Steve Holland • Nigel Curtis • Pranita Tamma • Simon Drysdale  
Dana Danino • Laura Ferreras-Antolin • Michael Heneka • Brad Spellberg

### Organised by

Servicio de Infectología, Reumatología e Inmunología Pediátrica de Sevilla

with the support of SEIP, GAIP and ESPID
